

DraftMore® Performance Period Guarantee

30 Day Money Back Performance Period Guarantee. NeuEnterprises, Inc. offers a no-cost, no-hassle 100% money back return policy during the Performance Trial Period. The Performance Trial Period begins upon receipt of the goods by the customer and goes through the end of the 30th calendar day.

NeuEnterprises, Inc. warrants that the DraftMore® Automatic Regulator will perform as described; that is, it will maintain the correct level of carbonation in a draft beer keg. Incorrect carbonation is a main cause of beer waste, although several factors can contribute to beer waste and foaming. Generally, in a system otherwise correctly set up, maintained and cleaned, you should see a measurable improvement in the amount of beer served per keg when using a DraftMore® Automatic Beer Regulator versus another type of draft beer regulator.

If you wish to return a DraftMore Automatic Regulator under the Performance Period Guarantee, you must ensure that it is returned in a 'Like New' condition, in the original packaging, and with any original accessories or parts included by the manufacturer or by NeuEnterprises. The Return Authorization process must be followed for you to receive credit for your return. Damaged products, whether damaged cosmetically or otherwise, cannot be accepted back under the Performance Guarantee.

If you are not satisfied with the performance of your system after you install your DraftMore regulator, please review the information on our website, or contact us! We can be reached via email, live chat or telephone. All contact details are available at www.beerprofit.com.

For details of our 3 year warranty and your rights, please review our Limited Warranty Statement (available at www.beerprofit.com).
